

Choose Three Items

It finally happened. The amount of plastic covering the Earth has led to complete environmental collapse leading to the imminent end to all life on the planet.

Fortunately, you have a seat on the last space craft heading to a planet that can support life. Unfortunately, it will take the ship 15 years to get there and you can only take a total of three items with you.

The items, all together, cannot take up more space than a small carry-on bag.

Important: No digital devices can be taken on the ship. Captain's orders.

Instructions

Name your three items and why you have chosen them. Write in complete sentences. Include at least 100 words per item. You will be presenting your choices to the class.

Rubric

	Information	Grammar
4	All necessary information is included and minimal word limit is met. Writing is concise and clear.	No more than 2 mistakes
3	General information is there but details are lacking in places. Writing could be clearer. Word limit is met.	2-4 mistakes
2	Few details or explanation for choices. Word limit is not met.	4-6 mistakes
1	Items are listed with very little explanation, if any. Word limit is not met.	More than 6 mistakes
